❤ Contribution Guide Lines

Each instance of the Deternet Bookstack Collection has its own contribution guide lines specific tailored for that instance. It basically describes some sort of standards that we expect when you add a shelf, book, chapter or page to it. We do this to give the instances some uniformity s.t it is easy to navigate for us humans and AI tutors. If you have any suggestions to change the contribution guidelines than please contact us at our Matrix Bookstack channel.

Happy contributing ;)
